APPLICANT INFORMATION

Name: _____ Date: _____
Company: _____ Phone: _____ Fax: _____
Street Address: _____
Major Intersections: _____

SECTION A – PROPERTY INFORMATION

A1. BUILDING OWNER'S NAME: _____

A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.

Tucson, Arizona Zip Code: 85 _____

A3. Property Description (Lot and Block Numbers, Tax Parcel Number, Legal Description, etc.)

A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.)

A5. PROPERTY TYPE: Parcel: _____ Structure: _____

By law, structures that are located in a Special Flood Hazard Area ("Flood Zone") containing an "A" and are financed by a federally regulated loan must have flood insurance coverage for the amount of the loan.

DO NOT WRITE BELOW THIS LINE – FOR DSD USE ONLY

Note: The above information is based on the best data resources currently available. Be advised that flood zone status is subject to change without individual notice and additional information may be available that will require further research by the inquirer. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property indicated as not being in a floodplain may be damaged by a flood greater than that which is regulated or by a local drainage problem that has not been identified or is not regulated. This letter does not create liability on the part of the provider or any officer or employee thereof for any damage that results from reliance on this determination.

For immediate determination visit our Engineering Counter at located at 201 N. Stone Ave., 1st Floor or send a self-addressed stamped envelope with a check made payable to City of Tucson for \$15.00 to COT-DSD/Engineering Division, P.O. Box 27210, Tucson, AZ 85726-7210.

LEGEND

Zone

X	Outside the 500-year floodplain.
Shaded X	Areas of 500-year flood; areas of 100-year flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 100 year flood.

Special Flood Hazard Areas Subject to Inundation by the 1% Annual Chance Flood. The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The special Flood Hazard Area is the area subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include Zones A, AE, AH, AO, AR, A99, V and VE. The Base Flood Elevation is the water-surface elevation of the 1% annual chance flood.

A	No base flood elevations determined.
AE	Base flood elevations determined.
AH	Flood depths of 1 to 3 feet (usually areas of ponding);Base Flood Elevation determine
AO	Flood depths of 1 to 3 feet (usually sheer flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
AR	Special Flood Hazard Area formerly protected from the 1% annual chance flood by a flood control system that was subsequently decertified. Zone AR indicates that the former flood control system is being restored to provide protection from the 1% annual chance or greater flood.
A99	To be protected from 100-year flood by Federal flood protection system under construction; no base flood elevations determined.
D	Areas in which flood hazards are undetermined.
V	Coastal flood with velocity hazard (wave action): no base flood elevations determined.
VE	Coastal flood with velocity hazard (wave action): base flood elevations determined.
